

SHIVANG SINGH

Android Developer

+91-8115698804 | shivangsinghblw@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Android Developer experienced in building scalable mobile applications using Kotlin, Java, Jetpack Compose, XML, Firebase, Retrofit, Coroutines, and REST APIs. Skilled in MVVM architecture, authentication systems, performance optimization, and scalable Android application development.

EDUCATION

JSS Academy of Technical Education, Noida
Bachelor of Technology – Information Technology

Nov 2022 – Present
CGPA: **7.8/10**

EXPERIENCE

7systems Technology Pvt Ltd, Ghaziabad
Android Developer Intern

Apr 2025 – Jul 2025

- Worked on REST API integration and improved application stability through efficient exception handling and debugging.
- **Reduced crash rates by 25%** through performance optimization and debugging of critical Android features, improving user experience and responsiveness.
- **Improved release quality by 35%** through functional and regression testing of Android application features.

RN Inspire

Android Developer Intern

Apr 2024 – Jun 2024
Sawai Madhopur, Rajasthan

- Developed Android application features using Kotlin with optimized backend communication and efficient API integration.
- Implemented advanced search, personalized recommendations, and enhanced UI/UX features, improving user engagement and navigation experience.
- **Improved application performance and maintainability by 30%** through modular code structure, clean architecture practices, and SDLC standards.
- Integrated asynchronous data handling using Kotlin Coroutines, resulting in faster loading times and smoother user interactions.

PROJECTS

Connecto | *Kotlin, Firebase, Jetpack Compose, MVVM*

[GitHub](#)

- Implemented one-to-one messaging, online/offline user status, and instant message synchronization, improving real-time chat responsiveness.
- **Reduced message delivery latency by 35%** through optimized Firebase queries and efficient asynchronous data handling.
- Designed an intuitive and responsive chat UI with Jetpack Compose, image sharing support, and smooth navigation for enhanced user experience.

DailySamachar | *Kotlin, XML, Retrofit*

[GitHub](#)

- **Increased user engagement by 25%** by enabling offline access to news articles, improving accessibility and ensuring uninterrupted content availability.
- **Improved maintainability and scalability by 30%** through MVVM architecture implementation and cleaner code structure.
- Integrated REST APIs using Retrofit for efficient real-time news fetching, seamless content synchronization, and faster loading.

ecoGrid – Real-Time Microgrid Monitoring | *Kotlin, Firebase, Arduino*

[GitHub](#)

- Built a real-time monitoring system for voltage, current, SOC, and power metrics with **latency under 2 seconds**.
- Designed an Arduino–Firebase pipeline for continuous IoT data streaming, improving real-time monitoring accuracy by **35%**.
- Developed an interactive Android dashboard for real-time visualization and monitoring of energy consumption trends.

TECHNICAL SKILLS

Programming Languages: Kotlin, Java, JavaScript, SQL

Android Development: Jetpack Compose, XML, MVVM, Coroutines, Firebase

Libraries & Tools: Retrofit, Git, GitHub

Backend & APIs: REST APIs, Node.js, Express.js

Databases: Firebase Firestore, MongoDB, MySQL

Cloud & DevOps: Firebase, AWS, Docker

Authentication & Security: JWT, Firebase Authentication, RBAC

Core Concepts: OOP, DSA, DBMS, Operating Systems, System Design

ACHIEVEMENTS

- **CodeChef:** Ranked in **top 300** among thousands of participants.
- **LeetCode:** Earned **3 badges** for maintaining consistent daily coding streaks.
- **Open Source:** Contributed **5+ merged PRs** across Sugar Labs and Hacktoberfest.
- **Smart India Hackathon 2024:** Secured **12th rank**.
