- Java
- SQL
- API
- Android Studio
- Firebase
- MongoDB

Hobby & Interest

- Rapping
- Song Writing
- playing Chess

Languages

- English
- Hindi

Projects

KapricornBiotech

Role: Android Developer | **Duration:** May 2025 – June 2025

Built a complete Android app for doctor appointments, meeting scheduling, medicine/product display, and order placement.

- Features include:
- User login & authentication
- Schedule & view meetings with doctors
- Doctor filtering by specialization
- View & order medicines directly in-app
- Add products to cart and generate billing
- Integrated backend with PHP APIs and MySQL database.

Tech Used: Java, Android Studio, PHP, MySQL, REST API
